

# La superficie total del recinto como palacio-fortaleza...

In the studies carried out by Dr Rafael Puertas Tricas, director of the Museum of Malaga, the double function of the precinct as a palace-fortress become evident from the measurements of its space. The total area of the Alcazaba is 14,208 m<sup>2</sup>, of which 6,994 m<sup>2</sup> are built on and 7,214 m<sup>2</sup> are currently not built on. Of the built area, 3,478 m<sup>2</sup> are occupied by civil buildings and 3,516 m<sup>2</sup> corresponds to purely military buildings.
